

Looking For Catarina: A Love Story From Santiago de Chile to Florence, Italy

This is a multiple-genre, short story. Books like this can be produced when writing is liberated from the confines of genre. Multi-genre books are important, because they respond to a changing world in which we can do new things, write in new ways. It provides a new dimension to the concept of crossover books, which appeal to young and old alike. The multi-genre book, rather than appeal to a wide age range, appeals to a wider range of reading tastes. For example, a look at the wide variety of review headlines for this book confirms its ability to be enjoyed across genre boundaries. Self-Published Authors have the freedom to tell the story she/he wants to tell, constrained only by the limits of the imagination. The SPA can write like Salvador Dali painted, freely, uninhibited by the boundaries, conventions and restrictions of any genre. This is a revolution that is currently going on, in which hybrid texts are being produced. Yet such writing places demands on reading comprehension that have gone largely unnoticed and unaddressed. We see this when the narrow perspective of genre conventions and expectations is used to judge hybrid, genre-crossing texts. This mismatch between text type and genre is clearly evident. What about the future? I see a future in which readers can and do embrace a new way of understanding hybrid, genre-crossing, boundary blurring, multi-genre texts. I am optimistic this will eventually occur, as more and more multi-genre books are being made available around the world for readers to read, enjoy and engage intellectually with...
