

Structures, Restructuration and Social Power

This book studies the production of power and the creation of structures through the use of models. It develops the conflictual and consensual traditions of power and the structuration perspective (Giddens) of structures. The bringing together of the two strands offers an alternative theoretical perspective. The book provides an analysis of social power, integrated into the broader framework of social order, and a critique of Giddens theory.

Marlynns R.

" Undeniably the best chiropractic care I've received to date. So happy to have you as my care team!!! "

Dan L.

" It's been about four months since I started it and I have never felt better. It's really ideal having a pain treatment doctor that knows what he's doing and does it so expertly."

Christina C.

" My car accident took place less than a block from my home. I went to a 1800SOSPain pain center a couple days later.

The treatment, the staff & Dr. Tommy was amazing."
