

## The Metaphysical Method of Success: How to Manifest Desires

Do you regularly pray but hardly ever receive any satisfactory answer to your prayers, and in desperation consulted with a psychic, fortune teller, astrologer, shaman or sangoma, yet no pleasing, happy outcome for your desires? Do you sometimes seek guidance from others or read what astrologers foretell in newspapers and magazines, in an attempt to predict the future? Now you can discover your own creative abilities to manufacture your own future and all the things you desire. This book ventures into the forbidden territory of secret knowledge that has either been veiled in elusive nomenclature in ancient texts or tersely itemized in selective instalments in contemporary books. All the secret methods revealed in this book are pragmatic possibilities based on a consolidation of ancient metaphysical knowledge and modern scientific research, to bring you unrestricted enlightenment for creating the successful life you desire. A must read for every person who seeks true happiness and fulfilment in life!
