

## Annual Report of the Bureau of Health for the Philippine Islands

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 edition. Excerpt: ...incurables who have become public charges, for transfer to Culion. These of course can not be taken care of upon a leper island, but when they are not taken away much surprise is often shown. The Provinces of Mindoro, Masbate, Romblon, Capiz, Iloilo, Antique, Oriental and Occidental Negros, Samar, and Leyte, have already been gone over two or more times, and with the exception of a few isolated cases, may be said to be free of lepers. The Provinces of Cebu, Bohol, Ambos Camarines, Albay, Batangas, Tayabas, Sorsogon, Benguet, Lepanto-Bontoc, and Ilocos Sur have been gone over once, but are not yet regarded as being free of lepers, and they will necessarily have to be searched over one or more times again. The present Legislature has made ample appropriation for continuing the work during the coming fiscal year along the lines mapped out by the Philippine Commission during the year just closed. At the colony proper much work was accomplished, but it has not yet even commenced to assume the appearance it is hoped it will have when the permanent improvements have been installed. The constant idea has been to make the colony, at least temporarily, habitable in the shortest possible time for the total number of lepers in the Islands, so that the opportunities for contracting the disease may be reduced to the smallest limits, and the drain on the resources of the Islands decreased as soon as possible. This plan also has the advantage of keeping the Bureau informed as to approximately how many lepers will have to be cared for at Culion for many years to come, and thereby makes it possible to regulate the extent and character of the permanent

improvements to be made. The Bureau of Health has not only provided all of the medical care and attendance...

Marlynns R.

" Undeniably the best chiropractic care I've received to date. So happy to have you as my care team!!! "

Dan L.

" It's been about four months since I started it and I have never felt better. It's really ideal having a pain treatment doctor that knows what he's doing and does it so expertly."

Christina C.

" My car accident took place less than a block from my home. I went to a 1800SOSPain pain center a couple days later.

The treatment, the staff & Dr. Tommy was amazing."
