

Trauma and the Therapist: Countertransference and Vicarious Traumatization in Psychotherapy with Incest Survivors

This book explores the role and experience of the therapist in the therapeutic relationship by examining countertransference (the therapist's response to the client) and vicarious traumatization (the therapist's response to the stories of abuse told by client after client). The authors address specific issues that arise in treatment of incest survivors.

" Undeniably the best chiropractic care I've received to date. So happy to have you as my care team!!! "

Dan L.

" It's been about four months since I started it and I have never felt better. It's really ideal having a pain treatment doctor that knows what he's doing and does it so expertly."

Christina C.

" My car accident took place less than a block from my home. I went to a 1800SOSPain pain center a couple days later.

The treatment, the staff & Dr. Tommy was amazing."
